- Found: 'used for'

DPA Violations Identified

Violation 1: Sensitive Personal Information and Privileged Information.

Section: Section 13

Severity: CRITICAL

Description: Sensitive personal information detected without adequate protection measures as required by Section 13

Details: Found 10 sensitive PII instances. Section 13 states: The processing of sensitive personal information and privileged information shall be prohibited, exc...

Affected Data:

- Religion
- Religion
- Catholic
- Religion
- 09356000500

Violation 2: General Data Privacy Principles.

Section: Section 11

Severity: MEDIUM

Description: Potentially excessive personal information processing violates proportionality principle

Details: Large amount of PII detected (449 instances) may violate proportionality requirements

Recommendations

CRITICAL Priority Actions

Enhance SPI protection

Description: Implement additional security measures for sensitive personal information

Reference: Section 13, Section 20

MEDIUM Priority Actions

Review data minimization

Description: Ensure only necessary personal information is processed

Reference: Section 11

LOW Priority Actions

Conduct privacy impact assessment

Description: Perform a comprehensive privacy impact assessment for this document

Reference: General DPA Compliance

Appendix: Technical Details

DPA Sections Referenced:

- General DPA Compliance
- Section 11
- Section 13
- Section 13, Section 20

Analysis Methodology:

This analysis was conducted using automated tools that: 1. Extract text from uploaded documents (PDF, DOCX, images) 2. Detect personal information using pattern recognition and NLP 3. Identify Philippine-specific PII (TIN, SSS, PhilHealth numbers) 4. Check for consent and purpose indicators 5. Apply DPA compliance rules to identify violations 6. Generate risk assessments and recommendations
